DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen Shaw on 6/24/2004.

The application has been amended as follows:

---Claim 28 has been deleted.

--Claim 27 has been amended as follows;

27. (~~Original~~ Amended) A method for displaying a two-dimensional image on a display surface, comprising the steps of:

- (a) directing, to each of three independently addressable linear arrays of light modulating devices on a common substrate, a color illumination beam;
- (b) modulating each of the three independently addressable linear arrays of light modulating devices according to an image data stream, forming three spatially separate line images thereby;
- (c) scanning the three line images toward the display surface to form the two-dimensional image thereon;
- (d) wherein the step of modulating comprises the step of synchronizing the image data stream according to the distance between the

spatially separate line images.

Allowable Subject Matter

Claims 1-27, 29 are allowed. The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1, 15, 25, 27, with the allowable features being; wherein the display data stream is synchronized accordinzed a spatial separation between the line images of the three independently addressable linear arrays(claim1, 15, 25, 27) .

. Therefore claims 1-27, 29 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
